4	The course description shared with me in the first week of the semester was adequate for me to understand what I should expect to achieve in the course	It seems like the students are really engaged and finding the material understandable. It's always great to receive positive feedback like this from students.	Currently, there is no need for immediate action.
5	Whether mapping of course objectives with the program objectives and the Bloom's Taxonomy Level of the modules of the syllabus is discussed or not?	During class, the majority of the faculty members were discussed the point with students.	No action required.
6	How do you like the lecture delivery (Till Date)	The majority of students have given clear and very clear responses across all subjects in their semester.	The department has arranged some extra doubt-clearing and remedial classes as per students' requirement.
