

As a result of the Perspective Plan of the Institution and teamwork, the institute has been able to achieve the following till date:

- Industry (TCS) Supported labs –TCS iON Laboratories
- MSME Business Incubator – Centre of Innovation.
- NPTEL local chapter
- NMEICT Nodal Centre
- IIRS Nodal Centre
- MoU with Arad University of Romania for Faculty and Student exchange programme.
- MoU with NHAi for Internship of Civil Engineering students.

Activity successfully implemented based on the strategic plan

Our institute in its student centric approach always tries to create an ambience and support system which is helpful for the holistic development of the students. As a part of this process the following activity has been successfully implemented:

- a) The idea of mentorship has been implemented with the support from all the members of the institute and is running successfully. The entire process is supervised and monitored by The Director of the institute in coordination with The Principal and HOD's. A faculty mentor is assigned a small group of 15 to 20 students to keep touch with his/her mentees regularly so as to provide necessary support in all possible way e.g. career counselling, psychological support, academic guidance etc.
- b) Students have been getting internship opportunities from different industries like NHAi and others over online platform through Internshala etc.
- c) Students submitted as many as ten projects to MSME, GoI for business development.
- d) Students achieved awards from GoI for winning project competition.
