TECHNOVISION 2K22

A Tech-Management Fest Committee Initiative

Post Event Report

Introduction:

Extra-curricular and Co-curricular activities have immense importance for college students. Employers today prefer to hire candidates who are equipped with knowledge and expertise in their field and know how to communicate and interact with clients. An active participation in tech fests, cultural activities, sports tournaments or anything outside of the classroom develops the confidence and personality of the students. Hiring managers today look for such extraordinary talent where you have organized a college fest or hosted an event. In addition, if students wish to pursue higher studies abroad, these co-curricular activities make them stand out from other students. Besides, involvement in college fests along with classroom learning teaches students how to manage their time effectively, prioritize work, follow a schedule, and respect deadlines.

Technical fests should be an essential part of the course curriculum of engineering colleges. It provides a platform for young brains to showcase their innovative ideas and compete with their peers. These technical events are an example of fun and learning where spectacular ideas are displayed, and students learn and feel inspired.

College fests and activities provide opportunities for students to interact with their peers and form new connections. While organizing any event, students invariably stumble upon new people and thereby build their network. Since most of these activities are group-oriented, students get to know about people from different cultural backgrounds and interests. These healthy interactions not only enhance the students' interpersonal and communication skills but also prepare them for the real world.

Employers today seek candidates who can think out-of-the-box and possess effective communication skills. Those who can multitask, take initiative, and are enterprising stand a better chance of getting hired. Students can grow in multiple directions if they actively participate in college fests. Students who volunteer and organize college fests exhibit their aptitude of being a self-starter, which is highly appreciated by recruiters, especially while hiring for managerial positions. In addition, students also develop four essential skills from organizing fests – planning, teamwork, leadership, and multi-tasking. They also get to learn how to balance personal and professional life which helps in differentiating between doers and dreamers.

Tech-Mgmt Fest Committee

Notice

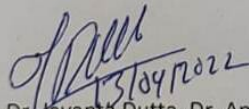

Ref. No.: SIT/TMFC/2022/1

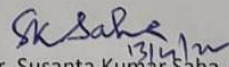

Dated: 13.04.2022

This is to inform all that the Tech-Mgmt. Fest '*Technovision 2K22*' will be held at S.I.T. campus on 28th and 29th April, 2022. The tentative program schedule is as follows:

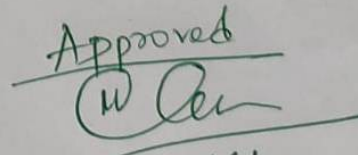

Tentative Schedule for Technovision 2K22

SL. NO.	EVENTS	TIMINGS	VENUE
Day 1 (28.04.2022)			
	Participants Reporting & Enrollment	10AM – 11AM	Event Venues
1	Software based Project Competition	11.00AM – 3PM	Front side, Main Building
2	Robotics (Manual)	11.00AM – 3PM	Centre Circle, Main Building
3	Computer Gaming	11.00AM – 3PM	ECE Portico, Main Building
4	Master Chef	11.00AM – 3PM	334 & 335 Building
Day 2 (29.04.2022)			
	Participants Reporting & Enrollment	10AM – 11AM	Event Venues
1	Hardware based Project Competition	11.00AM – 3PM	Front side, Main Building
2	Construction based Project Competition	11.00AM – 3PM	Front side, Main Building
3	Robotics (Autonomous)	11.00AM – 3PM	Centre Circle, Main Building
4	Business Bazigarh	11.00AM – 3PM	MBA Department
5	School Based Project Exhibition	11.00AM – 3PM	Front side, Main Building

13/04/2022
Dr. Jayanta Dutta, Dr. Amlan Ghosh
Coordinators
Tech-Mgmt Fest Committee

13/4/22
Dr. Susanta Kumar Saha, Mr. Manas Parai
Conveners
Tech-Mgmt Fest Committee

Note to: The Principal, SIT (for kind information and approval).

Approved

Faculty & Staff Committee:

SILIGURI INSTITUTE OF TECHNOLOGY
OFFICE OF THE PRINCIPAL

CIRCULAR

Ref. No. : Admin/2022/CIR/35

Date: 11.4.2022

This is to inform to all concerned that the institutional **Tech Management Fest Committee** has been revised with the following guidelines and members.

Guidelines :

1. To organise technical festivals for the students and to encourage them to design, develop and display innovative projects.
2. To organise similar festivals for students of our SIT model schools and other reputed schools in Siliguri and adjacent areas with the objective to promoting the brand name of SIT among them.
3. Maintain appropriate data and records.

Chairperson : Principal -SIT

Advisory Members : All Departmental Heads
Administrator, SIT

Conveners : Dr. Susanta Kumar Saha, Asstt. Prof., DESH
Mr. Manas Parai, Asstt. Prof., ECE

Members : Mr. Rajen Koley, Asstt. Prof. CE
Mrs. Aditi Sengupta, Asstt. Prof., ECE
Mrs. Sathi Ball, Asstt. Prof., IT
Mr. Pinaky Bhaduri, Asstt. Prof., DESH
Mr. R.P. Poddar, Technical Supervisor, ECE
Mrs. Lily Chandra, T.A., CSE
Mr. Debabrata Das, T.A., EE

Cooperation of all in this regard is requested from all.

Dr. Mithun Chakraborty
Principal
Siliguri Institute of Technology

Cc : All Concerned.

Event wise Final Report

Event Name: SOFT CRAFT

Date: 28.04.2022

Venue: Main Building, SIT

Introduction: If coding is in your blood and Tech-Geniuses inspire you then this event is for you. The event is all about designing innovative software.

Objective: The objectives of the event are as follows:

To provides an opportunity for students to learn event organization skills and showcase their talent amongst their peers while using skills that are important for success.

Outcomes: The outcome of the event is as follow:

To recognize and reward students with outstanding projects which demonstrate excellence in technology and innovation.

Rules of the Event:

- Open for all platforms and any type of machines. Participants have to specify the dependencies, tools and libraries that are required to run your application.
- Team size is restricted to 4 members maximum. Student from different colleges can also be part of the same team.
- The members of the teams are required to bring any software they are using in their projects in order to avoid compatibility issues, it would better to bring your own laptops.
- All participants will have to give an undertaking that the software submitted is their original creation.
- Any team without a working model will be disqualified.
- The decision of the judges and the coordinators will be final and binding.

Organizing Sub-Committee:

Coordinator: Mrs. Sathi Ball

Event wise Final Report

Event Name: Robo Cup (Robotics Manual)

Date: 28.04.2022

Venue: Centre Circle (Main Building)

Introduction: We have seen people playing football. But this time Robots will be playing football. Hence as the name suggests Robo Cup is a football tournament played by two bots of opposite teams. The game will be completely knockout and played on a smooth board resembling the football ground. The ball used in the game will be a small sponge ball (the size of a tennis ball).

As per football rules, it's a time-restricted game, so the number of goals indicates the winner.

Objective: The objective of the event is to make a controllable robot that can compete with other robots in a football competition.

Outcomes: The outcome of the event is as follow:

- i. To design and implement robots.
- ii. To clear the concept of robotics.
- iii. To handle the robot in sudden conditions.

Rules of the Event:

Robot Description:

1. The maximum dimension of the robot can be 30 (L) x 30 (B) cm.
2. The robot may be wired or wireless.
3. The length of the wire (for wired bots) should be long enough to cover the whole ground (board) and the wire should remain slack during the complete run.
4. Maximum RPM of motors: 300 rpm
5. Maximum weight should be limited by 3 kg.
6. Ready-made toy cars are not allowed.
7. There should not be any feature to hold the ball. The robot can use angled plates to move the ball easily.

Rules:

1. This is a knockout tournament, so the most match-winning bot wins after reaching the grand finale.
2. Robot should be as per the given specifications.
3. Each team can have a maximum of 3 members. Students from different departments can form a team.
4. Each member of the team must contain the identity card of his/her respective department.
5. The game will be 4 mins round.
6. Teams facing each other in the tournament will be selected by lottery on the day of the event.
7. If an odd number of teams arises, then the left-out team needs to play a qualifying match with the lowest scoring qualified team.

8. The robot must not intend to damage the other bot; else it will result in a foul and the judge's decision would be the final.
9. If the Robot is overturned it will result in a foul.
10. If the robot is stranded and does not show any movement or intend to move for a particular time, it will be given a foul.
11. The robot must not leave the arena; else it will result in a foul and the judge's decision would be the final.
12. Upon receiving a foul both the bots can be placed back to their position and the game starts from the center and the opponent will be getting the first strike.
13. Unethical behaviors could lead to disqualification. Faculty coordinators/ judges have all the rights to take final decisions for any matter during the event.
14. Only AC supply (180-220 volts) will be provided (no other variables would be provided by Organization).
15. Judge's decision will be considered final.
16. Certificates will be given to all the participants.

Organizing Sub-Committee:

Faculty/Staff Coordinator:

- i. Ms. Aditi Sengupta (Assistant Professor, ECE)
- ii. Mr. Rakshapada Poddar (Technical Supervisor, ECE)

Student Members:

- Itisasoloorteamparticipation.
- Registrationcharges ₹100(eachplayer).
- Anyoneabovetheage of 18canparticipateinthisevent.
- Atotalof25 teams canparticipateinthisevent.
- Eachgroupcanhavemaximumof4members.
- Participantsneedto getregisteredfirstbyfillingouttheregistrationformand gettingareceipt.

- ❑ Show your registration receipt to the Faculty/Student Coordinator for a particular event.
- ❑ The gaming competition will be on the game: Call of Duty (COD) Mobile Season 3 by Activision Publishing, Inc.
- ❑ Gaming gears⁵ are not allowed. Although, participants can use finger-sleeves/powder if needed.
- ❑ Any kind of suspicious activity during gameplay will lead to disqualification. If a participant is caught doing such activities, the whole team will be disqualified and banned from participating in future events.
- ❑ The decision taken by the organizers in case of any situation/issue will be FINAL.
- ❑ Participants must carry their own preferred headset.
- ❑ Teams should be responsible for their own technical issue (hardware/software/internet). Matches will not be rescheduled because of technical issues and matches will be played nevertheless.
- ❑ There should be only 1 captain on each team which will be decided before the start of the event and participants can collaborate with others if both sides agree to play together.
- ❑ If a participant leaves a team during gameplay, the team can continue to play with the remaining participants, but further additions of participants are not allowed.
- ❑ Please refer to the footnotes for clarifications. Participants should stay connected with the Event Faculty/Student Coordinator(s) for any queries/information.
- ❑ Participants need to take a print of this document and carry it at the time of the event.
- ❑ Link for Tournament Map: shorturl.at/igxTY
- ❑ **Minimum requirement for eligible devices:**
 - RAM: 3GB
 - Current updated version of COD Mobile Season 3³ (v.1.0.32)
 - Personal mobile internet
 - Personal Charger/Power bank if needed
 - Devices should have at least 90% charged before the start of the event.
 - Devices should not be rooted

Event wise Final Report

Event Name: Hardware Yoddha

Date: 29th April, 2022

Venue: Front Side, Main Building, SIT

Introduction: Hardware Yoddha is the Hardware event of Tech Management Fest 2022. The project competition provides an excellent opportunity to the students to showcase their talent, research orientation and untapped potential. The goal of this competition is to prepare the future generation of engineers not only problem solvers but to be innovative leaders and responsible citizens. The student deserves recognition of the amount of hard work done for the project.

Objective: The objectives of the event are as follows:

- To stimulate students and researcher to work on exciting project.
- To understand best practices and demonstration of diverse project, new innovations, etc.
- To relate the functioning of industry while working on project and understand how does industry function? Challenges and opportunities.
- To understand how to become entrepreneur? And understand challenges in entrepreneurship.
- How to start and run new industries and improve on existing ones.
- How to improve interpersonal competence.

Outcomes: The outcome of the event is as follow:

- Students have got the opportunity to improve soft skills such as communication, presentation, teamwork and problem-solving and technical abilities beyond boundaries.
- Students are motivated by our distinguished judge to develop their work into a next level.

Rules of the Event:

- Technical models should demonstrate implementation of innovative ideas and circuits.
- Efforts will be made to put models in different category according to the area of technology subject to availability of models in the given subject area.
- The final decision will be taken by the Judge.
- Maximum number of students per model may not be more than four (4).
- All the components related to the projects should be carried by the students.
- Certificate of presentation will be provided to all the students.

Coordinators:

1. Mr. Bidyut Das, Asst. Professor, MCA
2. Mr. Debabrata Das, Tech Asst., EE

Organizing Sub-Committee:

3. Puja Karmakar, ECE 3rd Year
4. Aritra Dutta Chaudhury, CSE 3rd Year
5. Ruparna Dutta, ECE 3rd Year

Name & Signature of Event Coordinators

Event wise Final Report

Event Name: NIRMAN

Date: 29.04.2022

Venue: Front Side, Main Building

Introduction:

The growing population has led to the big challenge of providing modern infrastructures which are environmentally sound, safe & cost effective. "NIRMAN" project gives you a chance to explore these challenges and demonstrate your designing and construction skill.

Objective:

The objectives of the event are as follows:

- To stimulate students and researcher to work on exciting project
- To understand best practices and demonstration of diverse project, new innovations, etc.
- To provide networking opportunity with industries that can help create breakthroughs
- To relate the functioning of industry while working on project and understand how does.

Outcomes:

The outcome of the event is as follow:

Today, industry needs highly skilled engineering graduates to combat real world challenges in an efficient manner. The mere knowledge of theoretical concepts would not help the students to solve the global challenges. From this Competition student will get exposure to solve the different global challenges.

Rules of the Event:

All projects must focus on an academic and/or technical construction or engineering related topic or theme. The following are recognized as construction and engineering industry related. The topic or title of the respective project or model must be mentioned.

Maximum 4 Members are allowed in each Group. Registration fee per Member is Rs.100.00.

All projects will be judged by external judge. All the participants should be present with their projects at the time of assessment/evaluation and are expected to answer the questions posed by the judge. The judge's decision will be final.

Organizing Sub-Committee:

Faculty member: Mr. RajenKoley / 9088145885 / rajenkoley@yahoo.co.in.

Student members:

Name & Signature of Event Coordinator

Event wise Final Report

Event Name: Maze O' Mania (Robotics Autonomous)

Date: 29.04.2022

Venue: Centre Circle (Main Building)

Introduction: A robot is placed in the far corner of a large, randomly drawn maze consisting of 5cm square segments. Junctions are akin to standard mazes - dead ends, T-intersections, right and left-hand turns, etc. This central area is positioned in such a way that left-turn only or right-turn only robots can never reach it. The goal is to reach the finishing line of the maze in the fastest time possible, across several attempts.

Objective: In this contest the contestant or team of contestants' design and build small self-contained robots (micro mice) to negotiate a maze in the shortest possible time.

Outcomes: The outcome of the event is as follow:

- To design and implement robots.
- To clear the concept of robotics.
- Proper design and implementation of sensors.

Rules of the Event:

Rules for the micro mouse:

- i. A Micro Mouse shall be self-contained (no remote controls). A Micro Mouse shall not use an energy source employing a combustion process.
- ii. A Micro Mouse shall not leave any part of its body behind while negotiating the maze.
- iii. A Micro Mouse shall not jump over, fly over, climb, scratch, cut, burn, mark, damage, or destroy the walls of the maze.
- iv. A Micro Mouse shall not be larger either in length or in width, than 16cm. The dimensions of a Micro Mouse that changes its geometry during a run shall not be greater than 16 cm x 16 cm.
- v. Any violation of these rules will constitute immediate disqualification from the contest and ineligibility for the associated prizes.

Rules for the maze:

- i. The maze is composed of multiples of an 18 cm x 18 cm unit square. The walls of the maze are 5 cm high and 1.2 cm thick (assume 5% tolerance for mazes). Thus, the internal navigable area within a square is 16.8cm, not 18cm. The maze comprises up to 16 x 16-unit squares, for a total maze size of up to 2.88m square. The outside wall encloses the entire maze.
- ii. The sides of the maze walls are white, the tops of the walls are red, and the floor is black. The maze is made of wood, finished with non-gloss paint.
- iii. **WARNING:** Do not assume the walls are consistently white, or that the tops of the walls are consistently red, or that the floor is consistently black. Fading may occur;

- parts from different mazes may be used. Do not assume the floor provides a given amount of friction. It is simply painted plywood and may be quite slick. There may be a seam between the two sheets on which any low- hanging parts of a robot may snag.
- iv. The start of the maze is located at one of the four corners. The start square is bounded on three sides by walls. The start line is located between the first and its second squares. That is, as the robot exits the corner square, the time starts. The destination goal is the four cells at the center of the maze. The destination square has only one entrance.
 - v. Small square zones (posts), each 1.2 cm x 1.2 cm, at the four corners of each unit square are called lattice points. The maze is so constituted that there is at least one wall at each lattice point.
 - vi. Multiple paths to the destination square are allowed and are to be expected. The destination square will be positioned so that a wall-hugging robot will NOT be able to find it.

Organizing Sub-Committee:

Faculty/Staff Coordinator:

- iii. Ms. Aditi Sengupta (Assistant Professor, ECE)
- iv. Mr. Rakshapada Poddar (Technical Supervisor, ECE)

Student Members:

- vi. Mainak Dasgupta (4th year, ECE)
- vii. AzelKarthak (3rd year, ECE)
- viii. Pritam Paul (3rd year, ECE)
- ix. Danish Das (3rd year, EE)

Event wise Final Report

Event Name: Business Bazigarh

Date: 29/04/22

Venue: MBA Dept.

Introduction: A new and a creative business idea is a key for healthy venture. Business Baazigarh competition is an opportunity for the students aspiring to be an entrepreneur to unfold their Entrepreneurial Vision and Skill. It is a team based event with minimum two members and maximum four members in a team. Participants need to make a detailed business plan for any innovative product/Service with a Capital of **Rs. 1 crore (Maximum)**. All registered team will have to give a Power point presentation on their business plan. The Business plan will be evaluated on the following parameters: Innovativeness, Market feasibility, financial viability, team work, overall presentation of business idea.

Objective: The objectives of the event are as follows:

- To provide a meaningful learning experience for students
- To **stimulate entrepreneurship** among students.

Outcomes: The outcome of the event is as follow:

- Experience creating a business model and writing a business plan
- Familiarity with primary / secondary market research and the process of conducting feasibility studies
- Experience working as part of a team
- Opportunity to sharpen organizational and communication skills

Rules of the Event:

1. Participants need to make a detailed business plan for any innovative product/Service with a Capital of **Rs. 1 crore (Maximum)**. Project feasibility study comprising of financial forecast (Cost of the project, sources of funds, Expenditures and Revenue A/c or P/L A/c and a Balance Sheet), Marketing Mix (Product, price, place and promotion), Manpower Planning, Production and Operations plan, swot analysis etc., may be included in the plan.
2. It is a team based event with minimum two members and maximum four members in a team. Registration is compulsory for all participants.
3. Every participating team must submit an abstract of their business idea within 150 words in a soft copy by 27.04.2022 at the **email id: bizplan2k15@gmail.com**
4. All registered team will have to give a Power point presentation on their business plan on 29th April ,2022, Department of Business Administration, library building, Room No.203.
5. The teams must send the soft copy of their ppt presentation at the above email id within 28th April 2022 and also carry the same on the day of competition along with a proof of registration.
6. Participants may bring the design of the product or advertising copy in chart paper during presentation.
7. The Business plan will be evaluated on the following parameters:

Innovativeness, Market feasibility, financial viability, team work, overall presentation of business idea.

8. Decision of the judges will be final and no arguments will be entertained under any circumstances.

Organizing Sub-Committee:

Faculty Coordinator: Santana Guha, Asst. Professor

Student members: Nidhi Bharati (MBA 1st)

Anik Ghosh Chowdhury (MBA 1st year)

Rikita Chettri (BBA 3rd year)

Anurag Sharma (BBA 2nd year)
